Review giving for 2009

Both 2nd and 3rd mile were achieved.

Rainbow selection for January (Blue): New City Ministries-Waterloo

For 40 years New City Ministries has provided a community in which God's presence is manifested in justice, equality and human fulfillment. New City continues to provide core services that include: a women's prison reentry into society program, racial reconciliation initiatives, community meals, emergency rental, water and utility assistance, as well as advocacy for social justice and change.

Rainbow selection for February(Green): Heifer Project International

Heifer Project International is an interfaith organization that provides animals and other forms of assistance to rural families in the United States and around the world. One unique program of HP1 is the living gift, which provides livestock to people who agree to give the firstborn female offspring to another neighbor in need. Besides giving animals to families they also instruct those families on the proper care of the animal.

Bullfrog project will be in October with a 9 volt battery given away for smoke alarms.
